We all live pay cheque to pay cheque. Follow this simple guide, and set up your personal Pay Cheque Planner. It's easy to complete. Here is an example of someone getting paid weekly. Input your income on the top line where indicated, then deduct your monthly expenses in the week they come due. In the above example this person is making their car payment every second week or bi-weekly. Remember you don't want to go into overdraft on your bank account, so ensure your LEFT OVER INCOME is a positive balance !
